

PROGRAM – WRITE A PROGRAM THAT TAKE SOME STRINGS FROM USER AND PUT THAT STRING IN SOME FILE AND THEN PRINT THE DATA FROM THE FILE AFTER OPENING AND READING IT.

//BHAVNA VERMA-171210019-02/04/2019

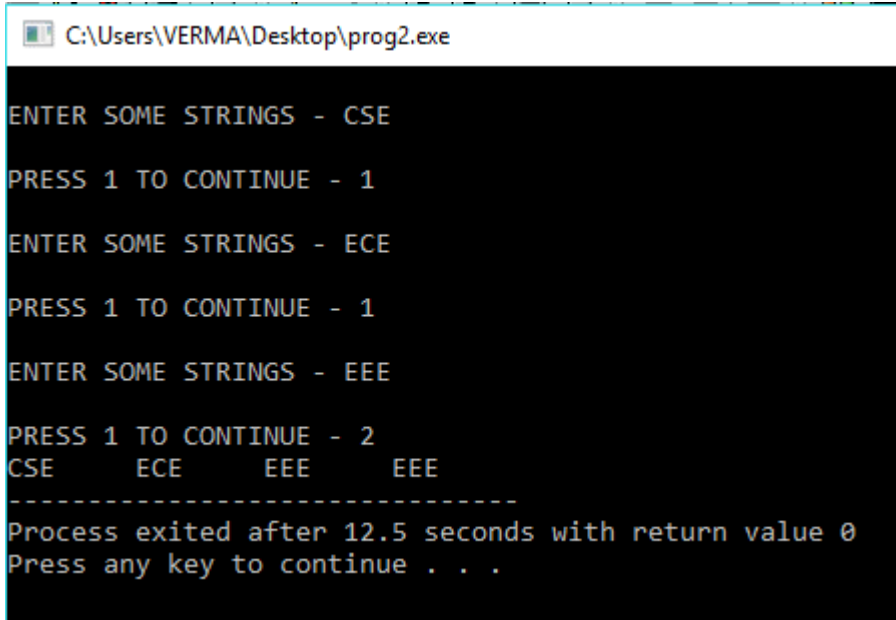

//TO ENTER EMPLOYEE DATA IN A TEXT FILE

```
#include<iostream>
#include<fstream>
#include<stdio.h>
using namespace std;
int main()
{
    ofstream o;
    o.open("MYFILE.TEXT");
    string name;
    int opt=1;
    float salary;
    while(opt)
    {
        cout<<"\nENTER SOME STRINGS - ";
        cin>>name;
        o<<name<<"\t";
        cout<<"\nPRESS 1 TO CONTINUE - ";
        cin>>opt;
        if(opt!=1)
            break;
    }
    o.close();

    ifstream i;
    i.open("MYFILE.TEXT");
    while (!i.eof())
    {
        i >> name;
```

```
        cout << name<<"\t";  
    }  
    i.close();  
    return 0;  
}
```

OUTPUT-

```
C:\Users\VERMA\Desktop\prog2.exe  
ENTER SOME STRINGS - CSE  
PRESS 1 TO CONTINUE - 1  
ENTER SOME STRINGS - ECE  
PRESS 1 TO CONTINUE - 1  
ENTER SOME STRINGS - EEE  
PRESS 1 TO CONTINUE - 2  
CSE      ECE      EEE      EEE  
-----  
Process exited after 12.5 seconds with return value 0  
Press any key to continue . . .
